

ESPORTS VANCOUVER VENUES

In Vancouver, tech and gaming run through our veins. Rife with large studios, independent developers and a diverse community of enthusiasts, our city is the perfect location for national and international esports events of any size. And at our facilities we're fully prepared to provide you with a space that can accommodate every aspect of your event to help make it a success.

VANCOUVER CONVENTION CENTRE

The award-winning Vancouver Convention Centre is a world-class facility located centrally in downtown Vancouver's beautiful waterfront district. With spaces ranging from **5,000 ft² to 220,000 ft²**, and comprehensive support available for any rigging, electrical or technical needs, the Convention Centre is unmatched in its ability to make your vision for competitors and fans come to life.

We know that having access to reliable and high-performing technology is critical to the success of your event. At the Vancouver Convention Centre, you will have access to:

- **600 APs** throughout the facility designed for **15,000 devices**
- **Redundant cores with full UPS protection** and 10 Gbps Redundant Internet, 2 Gbps internet link also available with NDDOS scrubbing with 1 Gbps additional link backup
- **43 Switch Closets** with CAT6 Cabling to over **10,000 RJ45 jacks** throughout the facility
- Utilize your own technology or preferred audio visual and production team if needed
- Bell, our exclusive internet provider and the largest Tier 1 telecom company in Canada, for extensive fibre infrastructure capability

BC PLACE

BC Place is a state-of-the-art venue like no other, and one of Canada's most celebrated event stadiums. Located in central Vancouver and offering **242,000 ft²** of space with seating capacity in the lower bowl for over **20,000 attendees**, the facility features a stunning modern design that includes **North America's second largest centre-hung video board**, a retractable roof and over 1,250 digital programmable screens to ensure fans can have an eye on the action regardless of their location.

BC Place provides a comprehensive stadium-set entertainment experience by matching your needs to cutting-edge technology and venue support. At BC Place, you will have access to:

- An in-seat ordering platform that allows fans to get food and beverages delivered directly to their seat without needing an app or registering for an account
- A 360° LED ribbon board
- Cellular LTE+ and WiFi coverage for extremely fast access to internet and social platforms
- Roof-based rigging for extravagant audio visual setups
- **A full-building Gigabit** managed network, servers, gaming stations and workstations that can connect throughout the stadium with low latency
- **Redundant cores with full UPS protection** and 10GB uplinks for broadcasting events to the world seamlessly
